ID #10 • \$35

Icelandic, English, French, German

ÍSLANDS BÓKIN

ID #20 • \$59

Icelandic (in translation into English and German)

These two books contain panoramic photographs from all over Iceland, a handpicked selection from Tæknimyndir's extensive large picture library. The pictures are unusual in that they are composites made from many individual frames. Tæknimyndir has developed its own unique technique of creating composite photographs which gives a wider angle and a whole new view of Iceland; creating new and exciting possibilities especially in aerial photography.

The third book, Hálendisbókin, is in production. It is like Íslandsbókin, but now containing pictures of the most isolated and magnificent places in Iceland. These two books together will systematically cover all Iceland in 340 pictures and 6000 names. All these and 500 other photographs, ready for use, can be ordered in almost any size and purpose (pictures are in CMYK format 30-500Mb each).
