TOUR-1	<h2>VOLCANOES and GLACIERS</h2> 	<p>SIGHTSEEING ONLY  </p> <p>This tour takes you from Reykjavik to the islands of Surtsey and Heimaey in the Westman Islands archipelago. Surtsey was formed by a submarine volcanic eruption lasting from 1963-67, while an eruption on Heimaey in 1973 submerged half the town in lava and ash. From there, the flight proceeds to the mainland and along the edge of the Eyjafjallajökull glacier, taking in the well-known volcano Hekla which last erupted in 1991. We then fly over the spectacular waterfall Gullfoss, and Geysir, one of the world's outstanding hot springs.</p>	 <p>DURATION: Approx. 2 hrs. Min.: 2 passengers</p>
TOUR-2	<h2>WESTMAN ISLANDS SPECIAL</h2> 	<p>INCLUDING BUS TOUR &amp; BOAT TOUR OPTIONAL   </p> <p>Depart from Reykjavik, we make the 25-min flight to Heimaey, enjoying a superb aerial view of the volcano Hekla and the island of Surtsey, visibility, of course, permitting. On landing at Heimaey, a private coach takes you on a tour of the island, where you will see the 1973 crater, still-warm lava and half-buried houses. Time permitting, a boat trip can also be included in this tour, giving an opportunity to view the extensive variety of birdlife, and the spectacular cave and cliff formations. A dramatic and memorable experience.</p>	 <p>DURATION: Approx. 3 hrs Min.: 2 passengers</p>
TOUR-3	<h2>COMBINED TOUR-1 &amp; TOUR-2</h2> 	<p>TWO TOUR IN ONE!   </p> <p>This is a sightseeing tour over Thingvellir, former site of the Althing, the world's oldest parliament (930 AD), with its breathtaking lava fields. TOUR-5	<h2>GLACIER ADVENTURE</h2> 	<p>NATIONAL PARK AND BOAT TOUR ON THE GLACIAL LAGOON   </p> <p>This flight takes in the beauty of the Thingvellir lava fields and Thórs mörk, an oasis of green sheltered between three glaciers. Continuing south, we land at Fagurhólsmýri and take a coach trip to the base of Vatnajökull, Europe's largest glacier and source of many of Iceland's largest rivers, stopping for a boat trip on a glacial lagoon filled with huge floating icebergs. Then it's on to the magnificent Skaftafell National Park before flying back to Reykjavik over Iceland's magnificent coast, Skeiðarárjökull glacier and the volcano Hekla.</p>	 <p>DURATION: 8 hrs. A bus trip to the base of the glacier is followed by a thrill of a skidoo ride through virgin snowfields to the summit. On a clear day, the distinctive cone-shaped mass of this extinct volcano can be clearly seen from Reykjavik, and such is its hypnotic attraction that many believe it to be one of the most powerful places on earth.</p>	 <p>DURATION: 5 hrs.
